What TurnKey Commercial lets you do

Quick decision-making based on real business data

Holistic end-to-end automation of the lending process

Payment/schedule flexibility that account for business specifics

Industry-specific credit products tailored for specific business sizes

Borrower portal to manage payments, communication, and loan applications

Sensitive info protection with robust data security measures

Optimized (largely automated) communications

TURNKEY COMMERCIAL OVERVIEW

TurnKey Commercial is the ultimate solution that answers the real-life challenges of a B2B lender in a sophisticated manner. It's a cloud-based infrastructure that has all the tools necessary to operate and scale a B2B lending business.

Issues and analysis that used to take staff hours or days - now handled on autopilot. Instead of 3-5 conflicting solutions, you rely on an end-to-end platform optimized to cut credit risk and boost efficiency.
